

JRV - 1

Hydraulic Power Pack

The JRV-1 Hydraulic Powerpack

Created in partnership with Hydraulic Specialists - Rexroth

JARVIS®

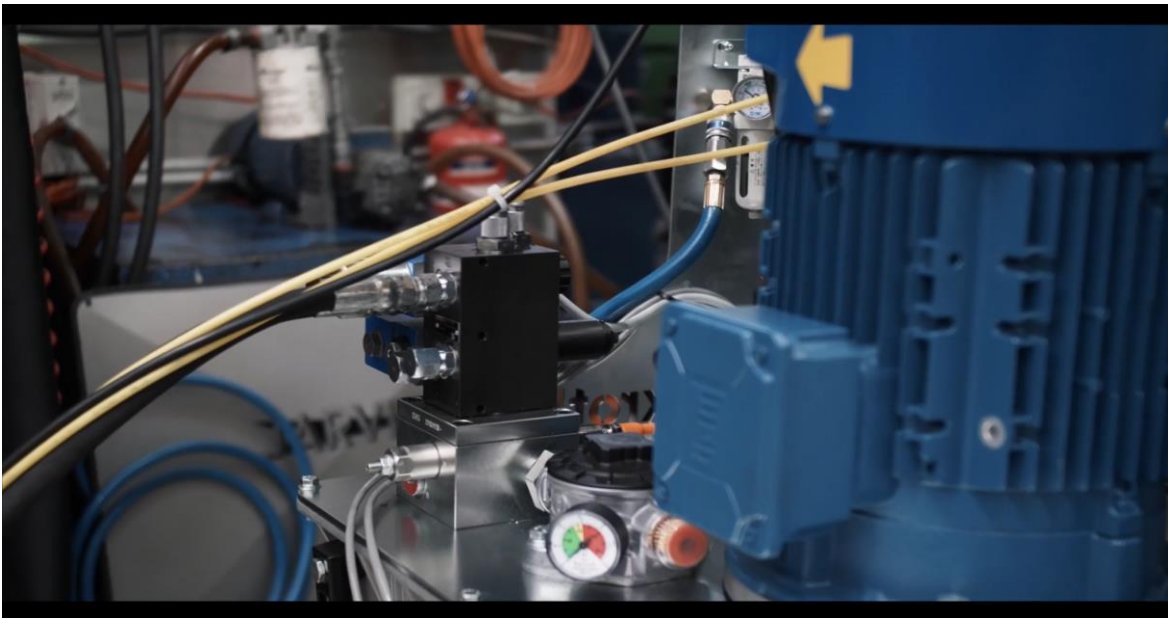

- Allows multiple applications to run from the single Powerpack
 - > Two of the same tools
 - > Two different tools
- The unit is compatible to run canola oil, which is Halal & Kosher certified. Lengthy tests have shown oil quality to remain high & viscosity remains consistent.
- Powered by **Rexroth VSD**, the unit allows quick & easy identification of the tool/s being used, and accurately applies pre-set pressure and flow rates automatically.
- This power unit is sized to replace every unit that Jarvis runs, allowing for a single unit to act as spare across the whole tool range - only the valves are different.
- The unit is cooler running, cooling the oil rather than heating, which eliminates some of the heat build-up - and fire risk - that traditionally occurs in hydraulic tool handpieces such as the SHC-205. Talk with your insurer re reduced fire risk associated with these units.
- Fully Supported by Jarvis' team of Service Technicians around the country.

Hydraulic Power Pack

JRV-1 Hydraulic Powerpack

Hydraulic Power Unit			
Power			9.2 KW
Voltage	415V	3 Phase	50 Hz
Oil Capacity			63 L
Oil Viscosity			68 ISO
Flow Rate			0 -30 LPM
Dimensions (L x W x H)	L = 750mm	W = 840mm	H = 1070mm
Weight without oil			186 kg

Description	Jarvis Number
JRV-1 Hyrdaulic Powerpack	4427052
